FORCES ARE ATTEMPTING TO ASSASSINATE THE LEADER OF A MILITIA GROUP,  
SUPREMELY DIVINE INVINCIBLE GRAND HIGH SUPREME GENERALISSIMO HIRAM MAXIMUS  
BRAGADOCIOUS GLORIANUS I. ESCORT THE GENERALISSIMO TO HIS DROPSHIP FOR  
EXTRACTION. BROADCAST PROPAGANDA FOR THE GENERALISSIMO IF POSSIBLE.

----- END TRANSMISSION -----

Unit Limits: 6K BV for 1v1, 10K for 2v2.

Map: Four mapsheets, with flat desert terrain. The defender selects seven  
hexes in a circle as the extraction zone. The extraction zone must be  
within 3 hexes of the attacker's home edge and within 3 hexes of the  
centerline of one mapsheet. This location is known to both sides. Place the  
radio station on the middle of the opposite side of the map.

Primary Objective: Escort the Generalissimo to the extraction zone. The  
Generalissimo pilots a Crusader CRD-3R and has Gunnery 5/Piloting 4 with  
the Antagonizer and Demoralizer SPAs. The Generalissimo leads from the  
front. The attacker earns 1M C-bills for each section of the  
Generalissimo's mech, excluding the head, that receives internal damage.  
The defender earns 1M C-bills for each section of the Generalissimo's mech  
that does not receive internal damage. The defenders can extract with the  
Generalissimo's mech when he reaches the extraction zone.

Secondary Objective: Broadcast propaganda. A unit in the same hex as the  
radio tower can upload the propaganda. If control of the radio tower is  
contested, no propaganda is uploaded. During the End Phase, roll 2D6 for  
each unit in the same hex as the radio tower. On a roll of 8+, or 4+ for  
infantry, the propaganda is successfully uploaded and broadcast. 3M C-bills  
per commander on a side if this objective is accomplished. The attacker  
automatically achieves this objective if the defender does not.

Base Pay: 1.2M (1v1) or 1.0M (2v2) C-bills per commander if no objectives  
are completed.

SUPREME DIVINE INVINCIBLE GRAND HIGH SUPREME GENERALISSIMO HIRAM MAXIMUS  
BRAGADOCIOUS GLORIANUS I NEEDS A NEW BATTLEMECH. SEARCH A LOCAL JUNKYARD  
AND BRING A SUITABLE BATTLEMECH TO THE GENERALISSIMO.

----- END TRANSMISSION -----

Unit Limits: 6K BV for 1v1, 10K for 2v2.

Map: Four mapsheets with urban terrain. Randomly distribute 3 unique unknown junkyard mechs on each mapsheet. Place the junkyard office in the center of the map. The junkyard office has a construction factor of 20.

Primary Objective: Search the mech junkyard. At the end of each unit's movement, roll 2D6 if they are adjacent to a junkyard mech. On a 3+ for infantry, 5+ for ground units, or 7+ for airborne units, they identify the junkyard mech. Units with an active probe automatically identify all junkyard mechs within the probe search radius at the end of their movement. Recover a junkyard mech by dragging it to your map edge. The dragging unit must end the Movement Phase in the same hex as the junkyard mech and make no weapon or physical attacks. A dragging combat vehicle or mech without hand actuators must have a friendly infantry or BA unit in the hex which also does not attack during the turn to secure the junkyard mech. A dragging mech with hand actuators cannot fire weapons mounted on the arm used to drag a junkyard mech. A dragging unit may not jump or make physical attacks. Reduce the dragging unit's walking MP by 3 or half, whichever is less. Each side can only present one to the Generalissimo. Add together the BV of the presented junkyard mechs. Each side earns a percentage of 7.0M C-bills based upon their presented mech's percentage of the total BV.

Secondary Objective: Capture the junkyard manifest. If an infantry unit occupies the same hex as the junkyard boss during the End Phase and the hex is not contested, that side identifies all junkyard mechs. The junkyard boss starts in the junkyard office. If the junkyard office is destroyed, the junkyard boss moves one hex in a random direction at the start of every Movement Phase. The boss must survive. This objective is worth 3M C-bills.

Base Pay: 1.2M (1v1) or 1.0M (2v2) C-bills per commander if no objectives are completed.

SUPREMELY DIVINE INVINCIBLE GRAND HIGH SUPREME GENERALISSIMO HIRAM MAXIMUS  
BRAGADOCIOUS GLORIANUS I HAS VALUABLE STAR LEAGUE FILES ABOUT THE DEEP SPIN  
MAINTENANCE YARD. DEFEND THE GENERALISIMO'S DROPSHIP

----- END TRANSMISSION -----

Unit Limits: 6K BV for 1v1, 10K for 2v2. The Generalisimo's battlemech counts towards the defender's BV.

Map: Three mapsheets with open terrain, arranged with short edges touching. Place the Generalisimo's crashed dropship in the center of the map. The Generalisimo is a 4/4 pilot in a Orion ON1-M. The Generalisimo starts on the dropship and walks on the map during the first turn.

Primary Objective: Drive off the raiding force. The defender starts pre-positioned on the center mapsheet. The attacker runs on one short edge of the map and exits on the opposite edge of the map. The attacker wants to transit the map and the defender wants to drive off the raid. Attacking units that cross the opposite map edge score; units that exit off another edge or are destroyed do not score. Award 7.0M C-bills proportionally to each side based upon the percent of attacking force's total BV that successfully exits the far map edge.

Secondary Objective: Capture the maintenance yard files. The attackers have three spies on Generalisimo's dropship. The spies can secretly move 1 hex at the start of each Movement Phase, before other units move. The attacker records each move on a piece of paper. The scouts can only be detected by another infantry unit in the same hex and only if the scouts moved this round. The attacker earns 1.0M C-bills for each spy that escapes off the map. The defender earns 1.0M C-bills if they find for each spy they find.

Base Pay: 1.2M (1v1) or 1.0M (2v2) C-bills per commander if no objectives are completed.
